NUTRITIONAL INFORMED CONSENT

According to the Federal Food, Drug, and Cosmetic Act, as amended, Section 201 (g) (1), the term "drug" is defined to mean:

Articles intended for use in the diagnostics, cure, mitigation, treatment or prevention of disease. A vitamin, mineral, trace element, enzyme, amino acid, herb, or homeopathic remedy is not a drug. Although, a vitamin, mineral, trace mineral, enzyme, amino acid, herb, or homeopathic remedy may have an effect on any disease process or symptoms, this does not mean that it can be misrepresented, or classified as a drug by anyone.

Therefore, please be advised that any suggested nutritional advice or dietary advice is not intended as any primary treatment and/or therapy for any disease or particular bodily symptom.

Nutritional counseling, vitamin recommendations, nutritional advice, and the adjunctive schedule of nutrition is provided solely to upgrade the quality of foods in the patient's diet in order to supply good nutrition supporting the physiological biomechanical process of the human body.

Evaluation of current nutritional status may employ various techniques including, but not limited to, symptom surveys, physical exam, case history, and reflex muscle testing. These methods of evaluation are not intended to diagnose or rule out any disease or condition but merely to analyze the body's nutritional status.

By signing below, I agree that I have read and understand the above statements and agree to the above named procedures. I intend for this consent form to cover this visit and any future visits for which I present.

Unopened supplements must be returned within 30 days of purchase date in good condition with a current expiration date in order to be considered for a refund.

*To be completed by patient's
